16 November 1973

Mr. Robert E. Morrison
Director for Management
Office of the Secretary of Defense
   (Intelligence)
Room 3C200 – Pentagon
Washington, D. C. 20301

Dear Red,

       In accordance with our discussion on 14 November 1973, I am
forwarding to you herewith position descriptions on the [ ] military   STAT
personnel currently serving on the DCI's Intelligence Community
Staff. Also attached are a position description covering the prospective
assignment to the IC Staff of [   ] and [   ] more generalized   STAT
position descriptions covering the remaining [   ] billets to be reserved   STAT
for the assignment of additional military personnel to the IC Staff during
FY 1974.

STAT   The requirement for [ ] military personnel billets on the IC Staff
is based on three factors: (1) the statement in the President's Directive
of 5 November 1971 that the DCI should strengthen his personal staff
in order more effectively to carry out his Intelligence Community re-
sponsibilities; (2) the judgment of Mr. Colby (and Dr. Schlesinger
before him) that the DCI needs at least [ ] professional-level officers   STAT
to provide him with the staff support he requires to respond effectively
to the 5 November Directive; and (3) the policy adopted by Dr.
Schlesinger when he was the DCI and confirmed by Mr. Colby when he
became the DCI, that the composition of the IC Staff should approximately
reflect the distribution of resources in the National Foreign Intelligence   STAT
Program Budget.

As I indicated to you in our meeting, I hope this material will permit an early decision on [   ]   STAT

I very much appreciate your help on this matter. Please let me know if there is any further information you need.

Sincerely,

[SIGNED]
